Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Final Rejection

The Status of Claims

Claims 1- 21, 23,46,56-60 are pending.

Claims 1- 21, 23,59-60 are allowable.

Claims 46,56-58 are withdrawn.

Claim Rejections - 35 USC § 112

Applicants' argument filed 10/20/08 have been fully considered but are not persuasive.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The rejection of Claims 1-23 under 35 U.S.C. 112, first paragraph, has been withdrawn due to the modification of claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of Claims 13-14 under 35 U.S.C. 112, second paragraph, has been withdrawn due to the modification of claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. The rejection of Claims 1-7, 9- 21, and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Collins et al (US 2004/0072868) has been withdrawn due to the applicants' convincing argument about the date of the prior art.

2. The rejection of Claims 1-7, 9- 21, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Collins et al (J. Med. Chem. 2002, 45, 1963-1966) has been withdrawn due to the applicants' convincing argument about the date of the prior art.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of Claim 22 under 35 U.S.C. 103(a) as being unpatentable over Collins et al (US 2004/0072868) has been withdrawn due to the applicants' convincing argument about the date of the prior art.

Applicants' Argument

Applicants argue the following issues:

- a. A section 103 rejection is not applicable due to the early priority date of the instant application;
- b. Collins provides no motivation to prepare the linker group having a C4-C8 between a carboxylic acid or amide moiety and the phenyl moiety.

Applicants' arguments have been noted, and the arguments are persuasive.

However, the instant claims are not in condition for allowance. The withdrawn Claims 46,56-58 need to be cancelled in order to allow the application.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
